

# **Sprint #2 Report**

## **Dress To Impress, Team Wired, 11/5/25**

### **• Actions to stop doing:**

The team is satisfied with the current process and did not identify any actions that need to be stopped. Our current workflow is working well for the team.

### **• Actions to start doing:**

The team will have a meeting before the next sprint planning all tasks first, then assigning them only after the plan has been fully fleshed out. This will avoid the problems we faced this sprint with constantly modifying tasks and having to reassign them.

Start merging more frequently !!! - Kat

### **• Actions to keep doing:**

The team will keep meeting throughout the week and communicating their progress. We have created a discord to document the tasks we are individually working on. We also decided to keep from modifying anything someone else has already started working on. This avoids any miscommunication that can lead to certain parts not working the way we wish.

### **• Work completed/not completed:**

Sprints not completed:

User stories not completed during this sprint:

**1.1** As a new user, I want to create an account and securely log in so that I can save and access my wardrobe and outfits.

**1.2** As a user, I want a visually appealing home page with clear navigation so that I can easily access my wardrobe, outfits, and app's other features.

Sprints completed:

**2.** As a user, I want to be able to upload and save my clothing pieces and their images.

**3.** As a user, I want to view my clothes in my closet.

**4.** As a user, I want to be able to edit individual saved clothing items' labels (ex. dressy, casual, ...).  
(organization of clothes).

**5.** As a user, I want to view clothes side by side in the outfits page to see how they look together.

6. As a user, I want to create outfits based on my wardrobe pieces.
