

Sprint #1 Report

Dress To Impress, Team Wired, 10/23/25

- Actions to stop doing:**

The team is satisfied with the current process and did not identify any actions that need to be stopped. Our current workflow is working well for the team.

- Actions to start doing:**

The team will include the “planning poker” practice in our initial sprint planning meetings. This will help us with estimating work task efforts, since we struggled with under/over estimating points this sprint.

- Actions to keep doing:**

The team will keep meeting throughout the week and communicating their progress. We have started to keep documentation on the tasks we are individually working on which helps with keeping each other updated asynchronously.

- Work completed/not completed:**

No user stories completed during the previous sprint.

User stories not completed during this sprint:

- 1.1** As a new user, I want to create an account and securely log in so that I can save and access my wardrobe and outfits.
- 1.2** As a user, I want a visually appealing home page with clear navigation so that I can easily access my wardrobe, outfits, and app's other features.

- Work completion rate:**

Total number of user stories completed during prior sprint: 0

Total number of estimated ideal work hours completed during the prior sprint: 13

Total number of days during the prior sprint: 14

Date - October 17th, 2025 - October 23rd, 2025
